

ONWUVUARIRI, CHIJOKE KINGSLEY

Cybersecurity Analyst | SOC Analyst

24 Williams Estate Oke Ira, Ogba Ikeja, Lagos, Nigeria | +2348063190487 | chijiokeon@gmail.com

PROFESSIONAL SUMMARY

Results-driven Cybersecurity professional with 5+ years of experience in network security, systems monitoring, incident response, and vulnerability management. Proven ability to detect, investigate, and mitigate security threats while maintaining robust IT infrastructure. Certified in CompTIA Security+ and Google Cybersecurity. Passionate about protecting organizational assets through proactive threat hunting and security operations.

WORK EXPERIENCE

2024 – 2025 Swift Networks Limited, Lagos, Nigeria

Network Administrator / Cybersecurity

- Monitored network performance and security logs to detect anomalies, outages, and potential intrusions
- Implemented and maintained security controls including firewalls, access controls, and backup systems to protect against cyber threats
- Conducted vulnerability assessments and applied patches/upgrades to mitigate risks
- Investigated and resolved security incidents and technical issues across servers and endpoints
- Developed and maintained technical documentation, IT security policies, and internal wiki for knowledge sharing and compliance
- Provided cybersecurity training and awareness to staff on best practices and emerging threats

2021 – 2024 Trakatel Limited, Enugu, Nigeria

IT Support Specialist

- Monitored and maintained computer systems, networks, and security infrastructure to ensure high availability and threat prevention
- Responded to security incidents and service requests, performing initial triage and escalation as needed
- Installed, configured, and hardened operating systems, applications, and network devices
- Managed user accounts, permissions, and access controls following the principle of least privilege
- Conducted hardware/software troubleshooting with a focus on security implications
- Tested and implemented new security technologies and solutions

2019 – 2021 Trakatel Limited, Enugu, Nigeria

Junior System Administrator

- Performed system and database administration with emphasis on security hardening and access management
- Diagnosed and resolved network faults, connectivity issues, and security vulnerabilities
- Installed and configured radio antennas and networking equipment with security considerations for client internet access
- Managed IT tickets and improved user security experience through proactive system enhancements

2016 – 2017 National Space Research and Development Agency (NASRDA), Abuja, Nigeria

Trainee Engineer

- Gained foundational knowledge in embedded systems, electronic circuits, and Python programming applicable to security automation and scripting

SKILLS

Security Operations: Threat detection & monitoring, Incident response, Log analysis, Vulnerability management

Tools & Technologies: Firewalls, SIEM concepts, Access Control (IAM), Endpoint protection, CompTIA Security+ tools

Networking & Systems: TCP/IP, Network troubleshooting, OS hardening (Windows/Linux), VPNs

Other: Python scripting, Technical documentation, Cybersecurity awareness training, Risk assessment

SOFT SKILLS

Analytical thinking, problem solving, Attention to details, Adaptability, Critical thinking, Team spirit, Time management

EDUCATION

Bachelor of Engineering in Computer Engineering

Michael Okpara University of Agriculture, Umudike, Abia State, Nigeria (2010 – 2015)

West African Senior School Certificate Examination (WASSCE)

Community Secondary School, Ikenanzizi, Obowo, Imo State (2002 – 2008)

CERTIFICATIONS

- CompTIA Security+
- Google Cybersecurity Professional Certificate (Coursera)
- Google IT Support Professional Certificate (Coursera)
- Certified Telecommunications Network Specialist (CTNS)

LANGUAGES

English (Fluent)

German (A1 – in progress)

HOBBIES & INTERESTS

Chess, Reading, Travelling, Meeting people
