

MEMORANDUM

To: IT Manager, Botium Toys
From: Chijioke Onwuvuariri, Cybersecurity Analyst
Date: November 25, 2023
Subject: Internal Security Audit Findings and Recommendations

Dear IT Manager,

I have completed the internal security audit for Botium Toys. Below is a summary of the key findings and recommendations.

Key Findings:

- High overall risk score (8/10)
- Significant gaps in access control and data protection
- Missing disaster recovery and backup procedures
- Compliance risks with PCI DSS and GDPR requirements

Recommendations:

1. Implement Least Privilege and Separation of Duties immediately
2. Encrypt sensitive customer and payment data
3. Develop and test backup and disaster recovery plans
4. Strengthen password complexity and management
5. Deploy an Intrusion Detection System (IDS)

I recommend prioritizing these actions to protect critical assets and reduce regulatory risk.

Please let me know a convenient time to discuss the full report and next steps.

Best regards,
Chijioke Onwuvuariri
Cybersecurity Analyst
